Arch-Support of a "Dorothy Dodd."

SAVE THE FATIGUE.

When your foot is tired from long walking or standing, you rest it most by holding it in your hand and compressing it firmly around and beneath the instep.

This is exactly what the "Dorothy Dodd" shoe does for you all the time. It is like a soft hand firmly grasping the "waist" of the foot and supporting the arch.

You will never realize how much of your daily fatigue can be relieved until you try a "Dorothy Dodd."

And the "Dorothy Dodd" retains its arch shape and sets closely up to the foot after it has been worn for months. No other shoe is made like it. Other shoes bend in the wrong place with every step you take. Thus the foot becomes tired. Is it worth while to endure tired feet when the remedy is so simple?

Sincerely yours,

Dorothy Dodd
